# Activities

There are lots of fun activities I can explore in the main hall. They are interactive, which means I can touch and play with them. SCI-FUN team members can show me what to do.

Here are some pictures

## More Activities

Some of the activities may be a little noisy at times.

The Coanda effect makes a sound like a vacuum cleaner.

The IR Sound exhibit plays music.

When children are having fun on the spinning chair, they may laugh loudly or squeal.

I can have a go too!

# Useful places

## Quiet space

If I need to find somewhere away from people or noises, I can go to the quiet space.

## Toilets

I will be able to go to toilets.

There will be hand dryers  but I do not need to use them.

I can use a towel instead. 

# When Early Birds Ends

At 10am the Early Bird event ends, but this doesn't mean that I have to leave. The SciFest opens to everyone at 10am, and more people will arrive. The adult I am with can decide what we will do.

We might stay in Bleachingfield Community Centre and carry on exploring the activities, OR

We might go to see some of the other shows and activities in Dunbar Primary, OR

We might go.
